# The Traditional Malay
Keris

How to Make your own Paper

Template makes 2 keris

1

Print this on a thick paper. Begin with coloring the template

2

Score in the middle line with a blunt knife

5

Paste one side on a foam board or styrofoam of 5mm

Use a cutter and cut along the dotted lines

Paste the remaining on the other side of the foam

3

Glue on the reverse side Fold in the middle so the 2 sides meet

4

Cut out the blade shape along the guide line

Blade

Handle
